t-ZOOM⁺ DNA

The Ultimate DNA Lab System:
Connects Forensic Labs to the Scene

The World's First and Only Portable System Capable
of Imaging From 6 Meters to 600 Microns

**DESIGNED FOR CRIME SCENE INVESTIGATIONS
& CRIMINAL LABORATORIES**

The world's first & only portable multispectral macro and micro imaging system

- ✓ **Perfect Live Imaging**
The world's first 4K live imaging in it's field
- ✓ **Crystal-clear Imaging**
Detailed, clear, and real-time imaging from 6 meters to 600 microns thanks to its continuous zooming and autofocus feature
- ✓ **Micro Evidence Detection**
Micro blood, micro dead skin cells, GSR, micro body fluids search and examination thanks to the optical zoom and auto-focus functions.
- ✓ **Smart Button Function**
Smart Buttons allow automatic filter/light combinations for the desired evidence type

Product Features

Mobility

1:1 Photography

4K Resolution

Auto Smart Search

DNA

AutoFocus

Optical Zoom

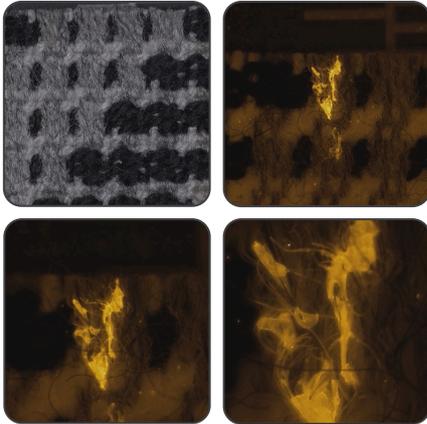

- ✓ Microscopic examinations with adjustable electronic Copy Stand specially developed for laboratory use
- ✓ 8.8" inch, 2560x1600 pixel, high resolution touchscreen
- ✓ 1.2 TB memory, 12 GB RAM, 3.2GHz CPU features
- ✓ Live image output directly to TV via HDMI connection, Connection slot for keyboard and mouse.
- ✓ Quickly export case folders with WiFi and Bluetooth

Software and Image Features

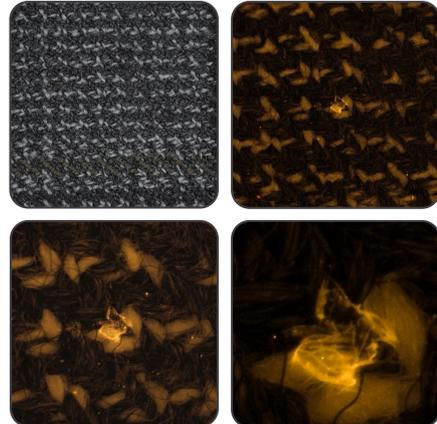

1. Designed for both scanning evidence at the crime scene and searching for potential evidence at the laboratory, with its optical zoom function.
2. High-quality 4K resolution real-time imaging and 4K video recording.
3. High-powered light system for long-distance imaging.
4. Camera spectral range from 330nm ± 20nm to 1100 nm ± 20nm.
5. Unique real-time image comparison.
6. Quick view button.
7. Android operating system and integrated Forenscope CMS (Case Management Software).
8. Measuring, drawing, comparing, overlapping, opacity swap and much more software functions.
9. Built-in Wi-Fi, Bluetooth and GPS features and a built-in SIM Card slot for connection. Advanced connectivity, anytime and anywhere.
10. Multi-user support and admin page management.
11. Archive and export data and detailed case reports via USB.
12. Backup and restore.
13. Type C, 65W fast charger.
